

# Thermia MBH

MBH 200

MBH 300

## The water heater that works quickly and efficiently.

**The Thermia MBH** is an extremely efficient water heater designed for compatibility with the Thermia Diplomat Duo and Thermia Diplomat Duo Optimum heat pumps.

The water heater's TWS technology\* assures highly efficient heat transfer and better layering of the water than traditional technology. This means your water is heated more quickly, less energy is consumed and the hot water lasts longer when using large amounts.

The water heater is available in two sizes, 200 and 300 litres, and can be ordered with a copper-lined steel tank or a stainless steel tank.

\* TWS = Patented heating technique for water heaters, developed by Thermia

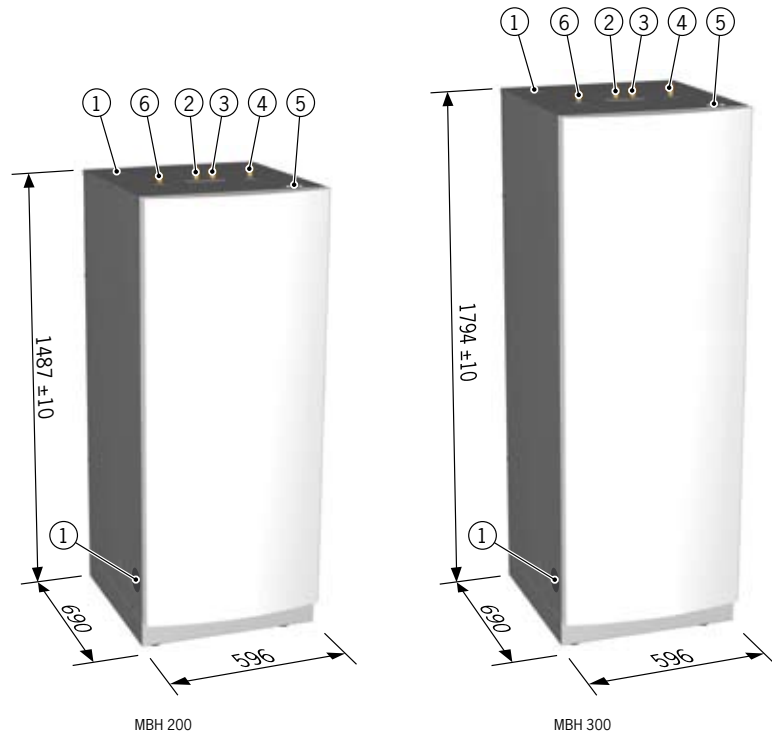

# Technical data MBH

## Connection MBH 200

- 1 Return line (alt.)
- 2 Hot water
- 3 Cold water
- 4 Feed line
- 5 Cable lead-in, sensor cable
- 6 Exhaust air (only stainless waterheater)

## Connection MBH 300

- 1 Return line (alt.)
- 2 Hot water
- 3 Cold water
- 4 Feed line
- 5 Cable lead-in, sensor cable
- 6 Exhaust air (only stainless waterheater)
